About us

The Vision Australia – Vision Store features a wide selection of magnifiers, daily living aids and assistive technologies for people with a vision impairment and our range is growing.

We’ve made it easy to shop in a way that best suits you and you can view a selection of our products online, in Vision Australia hubs, over the phone or book a home visit by one of our professional service providers.

We source our range from all around the world, ensuring we offer the very latest innovations for people with a vision impairment.

We are proud to be an approved Department of Veterans’ Affairs, National Disability Insurance Scheme and My Aged Care supplier.

Our services include:

• Low Vision Clinics
• Allied Health
• Library
• Vision Australia Radio
• Children and much more

to help support entitled Australians who are blind or have low vision with their personal aims.

If you have further questions about our range or would prefer to order over the phone, simply call 1300 84 74 66 between 9am and 5pm AEST on weekdays and a member of our team will be glad to assist you.

Our aids and technology products can help you to enhance your functional independence at home, at school, at work, and in your local community, so you can live the life you choose.
Let us help you with your NDIS consumables

Vision Australia is committed to helping you on your NDIS journey and have included a special NDIS Consumables icon on suitable of our products. Consumable items are generally lower cost items required for everyday activities.

Consumables fall under the core supports budget available through NDIS. If the NDIS has approved a consumables budget in your plan this can be used to purchase adaptive daily living equipment through Vision Store and Vision Australia offices.

**NDIS Consumables**

To help you quickly and efficiently with your NDIS consumable budget questions there is some information that we recommend you have to maximise your visit to Vision Australia and Vision Store.

Bring along a copy of your NDIS PLAN on your first visit, if you don’t have a copy of your PLAN, that’s ok. If Agency Managed, we will need your NDIS number and PLAN start and end dates. To find out your budget to spend on consumables, please refer to your NDIS plan as consumables vary from $500 up to $1500 depending on plan.

To find out your budget to spend on consumables will depend on how you are managed:

- **Plan Managed** – Contact your plan manager and ask them to provide you with how much you have remaining on your consumables budget (please note, due to privacy and confidentiality legislation, Vision Australia is unable to contact plan managers on your behalf to request consumable budget information)

- **Agency or Self-Managed** – Log onto the NDIS participant portal (myplace)*

If you have any other questions regarding your NDIS consumables budget, please do not hesitate to contact Vision Australia on 1300 84 74 66.
*myplace is a secure website portal on the Australian Government’s myGov website where you or a person you trust (a nominee or child representative) can access your NDIS information.

**C NDIS Consumables**

Consumables fall under the core supports budget available through NDIS. If an NDIS client has been approved for a consumables budget in their plan, they can then purchase adaptive daily living equipment through Vision Store and Vision Australia branches. Consumable items are generally lower cost items that a person requires in their everyday life including Leisure, In the home, Lighting products and more. In this catalogue, we have highlighted which products are consumables and can be purchased through a personalised NDIS plan.

With IrisVision, the future of the low vision solutions is clear.

IrisVision is a new low vision wearable technology that combines the current Samsung virtual reality headset with innovative upgradeable software to produce a low cost, low vision solution unlike anything else on the market.

Simple to Use

IrisVision offers patients intuitive interfaces, large screens with sharp vivid color, a wide range of magnification and auto focus capabilities for near, distant, and intermediate tasks - all with a much larger field of view than any other device on the market.

Forward Thinking

The IrisVision software platform opens up a world of possibilities for future features including movies and media content, rehabilitation training software, and even medical monitoring for patients to connect to their doctors via tele-medicine.

Backed By Research

Founded by renowned Neuroscientist Dr. Frank Werblin in collaboration with a top Silicon Valley based technology team, IrisVision is backed by research by top low vision rehabilitation experts including Dr. Bob Mass of Johns Hopkins University.

Vision Australia is proudly the exclusive distributor of the IrisVision in Australia.

Extra Choice with our Special Order Service

In addition to our extensive range of Vision Australia products, we also offer a diverse range of special order items that include white goods technology, magnifiers, smart home products and more.

If you are having trouble finding the product you require our team can assist you. Our special order service includes products from our brands such as Apple, Samsung, European Eyewear, and Dolphin.

Special orders have extended delivery periods.

How to Order

1. Enquire

   Speak to one of our friendly staff who can inform you of our special order range

2. Purchase

   Once you have made your choice one of our staff members will submit the order for you.

3. Delivery

   Once your order has been placed, we will call your when your order is on its way, usually within 5-10 business days.

   Special Orders cannot be returned unless faulty or damaged.

Please contact us on 1300 84 74 66 or VisionStore@visionaustralia.org to find out more information.
