Introduction to Vision Australia

Vision Australia is a leading national provider of blindness, low vision products and services.

Vision Australia is proud to be one of the approved Department of Veterans’ Affairs (DVA) suppliers for the Rehabilitation Appliances Program. We are a provider for Low Vision Clinics, Allied Health Services and Library Services for entitled veterans, war widows and widowers who are blind or have low vision.

Vision Australia is an approved provider to deliver services and products to the National Disability Insurance Scheme, My Aged Care and self-funding clients.

As well as supporting individuals, we work in partnership with health care professionals to support your clients who are blind or have low vision to lead the lives they choose.

Welcome to Vision Australia’s DVA catalogue where you can select, trial and order more than 500 DVA products for your clients to help them move safely around their homes and communities, function comfortably and stay independent.

Whether your client needs an optical or a supportive daily living aid, we can help.

As well as products, Vision Australia also offers DVA clients a range of services that includes low vision assessments, allied health services, product demonstrations, installation and training.

We are pleased to provide a handy DVA product catalogue so together, we can enable your clients to complete a variety of daily living tasks more easily, securely and efficiently.

Our Proud Partners & Suppliers

We would like to thank our partners and suppliers who continue to support our mission and vision. We proudly acknowledge their generous help, these partnerships will continue to assist us and support the blind and low vision community to live independently.
How to use this catalogue

The Vision Australia DVA product range includes a wide selection of optical aids, daily living aids and assistive technologies for people living with blindness or low vision.

This catalogue is designed for health care professionals to provide an understanding of the DVA products we offer. Plus, guidelines on who may prescribe and how to order these products.

What does Vision Australia offer?

We provide a range of products and services for different visual needs.

Our DVA services include low vision assessments, allied health services and library services. For more information about these or to make referrals, visit our website at shop.visionaustralia.org/dva

The products in this catalogue can maximise a Veteran’s remaining vision, enabling them to complete a variety of daily living tasks more easily and efficiently.

Optical aids are visual devices that utilise magnifying lenses to help improve a visual function. Daily living aids are devices that enable a visual impaired person to complete regular day-to-day tasks more easily and efficiently.

Optical aids can be prescribed by Ophthalmologists, Optometrists and Orthoptists. Daily living aids can be prescribed by various allied health professionals which include Optometrists, Orthoptists, Occupational Therapists and Specialists (GP).
Five ways we make it easier for you ...

1. Prescribing is simple

We’re here to help you research, prescribe and order, optical and daily living aids that support your clients’ needs. Once we have received your order, Vision Australia’s experienced professionals are available to help you at any stage.

2. Expert product knowledge

Vision Australia has more than 500 products in this catalogue, sourced from Australia and around the world. Our qualified team pride themselves on their product knowledge and their ability to help determine what items are most suited to your individual client needs.

3. Genuine support

Once your order has been placed, we also manage a network of delivery, installation and training experts who are caring, practical and proficient.

4. End-to-end case management

All orders can be placed and tracked 24 hours a day, 7 days a week. From the moment we receive your order, we take responsibility right through to final delivery or installation.

We will email you at each stage of your order’s progress. If you have any queries along the way, Vision Australia’s support team is ready to help.

5. DVA Hotline

Phone 1300 365 492
How do I prescribe your products?

**Step 1.** If you want to order optical aids or daily living aids, first of all determine if your client is a DVA Gold Card Holder or eligible DVA White Card Holder.

**Step 2.** If yes, complete an Optometric/Optical Service Voucher (D1223) to order optical aids. To order a daily living aid, complete a Rehabilitation Appliances Program (RAP) Low Vision Direct Order Form. Vouchers and forms are available from the Vision Australia website [shop.visionaustralia.org/dva](http://shop.visionaustralia.org/dva)

If your client is not a DVA Gold Card Holder or an eligible DVA White Card Holder, they will have to self-fund the purchase.

**Step 3.** If the optical aid requires prior approval, complete the Optical Treatment Prior Financial Approval Request Form (D1399) and email it to health.approval@dva.gov.au for approval. Once you have received approval, please send the approval document with the D1223 voucher to Vision Australia visionstore@visionaustralia.org, or post them to 454 Glenferrie Rd Kooyong VIC 3144, or fax them to 1300 84 73 29.

If the daily living aid requires prior approval, submit an application to DVA to clinically justify why this is the most suitable aid for your client and also obtain a quote from Vision Australia via email on visionstore@visionaustralia.org, then email all documents to rapgeneralenquiries@dva.gov.au for approval by DVA.

Once you have received approval, please send all forms to Vision Australia visionstore@visionaustralia.org or post them to 454 Glenferrie Rd Kooyong VIC 3144, or fax them to 1300 84 73 29.

**Step 4.** If the optical aid or daily living aid does not require prior approval, send the voucher or form direct to Vision Australia at visionstore@visionaustralia.org so your order can be processed as soon as possible.

If you have any queries, please call our dedicated DVA hotline on 1300 365 492 weekdays between 9am and 5pm AEST.
**Prescriber Key**

**PA** Prior approval required

Some aids require prior approval from DVA as the cost of the aid is greater than the threshold that DVA will fund.

---

**Prescribers for Optical Aids:**

- Optometrists (Op)
- Low Vision Clinic (LVC)
- Ophthalmologist (Ophthal)

**Prescribers for Daily Living Aids:**

- Optometrists (Op)

  - Product code: ES0010
  - DVA price: $135.46
Did you know that at Hearing Australia, we offer a range of solutions for those with hearing loss to help them get the most out of life, and these do not only include hearing aids.

As a **DVA card holder** you could be entitled to hearing products that can help you to hear more clearly.

**Headsets to help you hear your television**

**Wireless headphones**

**Sennheiser™ RS195 headphones**
Comfortable and lightweight, these headphones are an ideal choice to listen to your favourite music or movies.

**Wireless headphones**

**Sennheiser™ RS5000headphones**
Enjoy TV at your own volume. With inbuilt digital analogue converter, the RS5000 transmits up to 100m line of sight, so you’re free to move around your home.

**Products to help you to hear your friends and family more clearly**

**Roger™ Pen & My Link**
No matter how noisy the table is, Roger Pen can help make it easier for you to follow the conversation. Simply place this cutting edge microphone on the table to give your hearing aids a boost when you need it.

**Bellman Domino Pro**
Domino Pro filters out background noise and enhances speech. Domino works with hearing aids and just as well with regular headphones or earphones.

**Products to help keep you safe and alert when you are at home**

**Oricom Doorbell & Phone Alerting System**
Convenient doorbell and phone ring alerting system to help you hear that doorbell.

Simply pop in to one of our Hearing Australia Centres or **call us on 131 797** for more info.

* Available to DVA Gold Card (all conditions) and White Card Holders (specific conditions) subject to pre-approval and assessed clinical need.

** Subject t pre-approval under DVA Rehabilitation Appliances Program and supply limits apply.
**Sunglasses/Fitovers**

**Fitover For Sunglasses**

Wrap around style sunglasses designed to fit over prescription spectacles. Polarised lenses to cut out uncomfortable UV rays. Available in different coloured lenses and frames.

**DVA code:** OP37

When vision loss affects her daily life, it’s time to refer to Vision Australia

People experiencing vision loss are three times more likely to suffer depression and twice as likely to experience a decrease in social independence.¹

The allied health team at Vision Australia complement the work of eye care professionals. Our vision loss experts help patients use their remaining vision to navigate their environment safely, prevent falls and get back to social activities.

When we refer
- Upon diagnosis of a permanent, non-correctable or progressive eye condition
- Vision loss starts to impact everyday activities
- Glasses no longer correct vision, or your patient needs support adjusting to vision loss.

To refer online or download free vision loss resources go to visionaustralia.org/SCLMA or call 1300 84 74 66

¹ CERA, Clear Insight: The Economic Impact and Cost of Vision Loss in Australia, Aug 2004

A large talking watch with a clear analogue face and white numbers on a black background.
DVA code: AN15

Product code: ES7109
DVA price: $101.50
Frequently Asked Questions

How may we assist you to help your DVA clients?
Vision Australia’s DVA Low Vision Assessment and Allied Health Services uses personalised testing to customise a service plan. Your clients can access the latest optical aids, daily living aids, specialty equipment and world class adaptive technology through us with full support at purchase, installation and training stages.

What is the Rehabilitation Appliances Program (RAP)?
The Rehabilitation Appliance Program, known as RAP, helps eligible members of the veteran community to be independent and self-reliant in their own homes through health care assessments and the provision of aids that help to minimise the impact of disabilities.

What does Vision Australia offer?
We provide a range of products and services for different visual needs. These include low vision assessments, allied health services and library services. Our products (both optical and daily living aids) can maximise a person’s remaining vision, enabling them to complete a variety of daily living tasks more easily and efficiently.

How are your clients eligible for RAP?
Your clients are eligible for RAP appliances if they have been assessed by an appropriately qualified health care professional (e.g. Optometrist, Orthoptist or Occupational Therapist) and are a:

- Gold Card holder;
- White Card holder (only for conditions accepted by DVA as related to service); or
- Veteran from an allied country (only for conditions accepted by DVA as related to service).

How do my clients access RAP?
Your clients’ needs will be assessed by their doctor or a health professional, such as an Occupational Therapist or Optometrist. Their referral and prescription will be sent to Vision Australia or DVA.
Can my clients receive aids and appliances if they live in a Residential Aged Care Facility?

This depends on the existing level of care they receive.

To determine what level of care they receive, your client should consult their Aged Care Provider.

The only low vision aid that DVA cannot fund under RAP are CCTVs (Desktop Magnifiers, AN11 items) if your client is receiving a greater level of care in an Australian Government funded aged care facility.

RAP items can be taken with them if they move from a lower level of care to a greater level of care, with the approval of their Aged Care Provider. DVA will still be responsible for the repair, maintenance and replacement of these items.

Can clients have their aid or appliance delivered?

Yes, aids and appliances will be delivered to their home. Freight charges, installation and training will be covered by DVA.

What if their equipment is broken?

Vision Australia complies with all Consumer Legislation and will replace or repair damaged equipment under warranty or can support repairs out of warranty.

What if my client no longer needs their equipment?

If they do not need their equipment anymore and it is under 12 months old, they may contact Vision Australia to arrange its collection. Alternatively, they can donate the equipment.

Why do I require prior approval?

Prior approval is required as some items are above the DVA threshold and DVA require the prescriber to clinically justify why the chosen aid is required for the client. This is to ensure that the most appropriate aid for the client was prescribed and that they know how and have the ability to use this aid.

Is it easy to refer my client to Vision Australia for services?

Yes it is. You can refer your client using Vision Australia’s online referral form, www.visionaustralia.org/referral/form or phone us on 1300 365 492.
